

# Gigabit Passive Optical Network Global Market To Grow At Rate Of 16% Through 2026

*The Business Research Company's Gigabit Passive Optical Network Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026*

LONDON, GREATER LONDON, UK,  
September 29, 2022 /

EINPresswire.com/ -- According to  
'Gigabit Passive Optical Network Global  
Market Report 2022' published by The

Business Research Company, the gigabit passive optical network market size is expected to grow from \$10.91 billion in 2021 to \$12.72 billion in 2022 at a compound annual growth rate (CAGR) of 16.6%. The global gigabit passive optical network market size is expected to reach \$22.65 billion in 2026 at a CAGR of 15.5%. The increasing demand for high-speed broadband services is expected to propel the gigabit passive optical network market growth going forward.

The gigabit passive optical network global market consists of the sale of gigabit passive optical networks by entities (organizations, sole traders, and partnerships) that are used for consolidating multiple services onto a single fiber transport network. A gigabit passive optical network refers to a telecommunications network that helps the provider bring fiber optic cabling and signals to the user. This helps to increase the bandwidth over a long distance. It is used to deliver voice, data, and video services at gigabit speeds.

## [Global Gigabit Passive Optical Network Market Trends](#)

New technological innovations have emerged as the key trend gaining popularity in the gigabit passive optical network market. Major companies operating in the gigabit passive optical network sector are introducing new technologies to sustain their position in the market.

## [Global Gigabit Passive Optical Network Market Segments](#)

The global gigabit passive optical network market is segmented:

By Type: Optical Line Terminal (OLT), Optical Network Terminal (ONT), Passive Optical Splitters  
By Component: Product, Service  
By Technology: 2.5 GPON, XG-PON, XGS-PON, NG-PON2  
By Application: Fiber to the Home (FTTH), Fiber to the Building (FTTB), Fiber to the Curb (FTTC), Fiber to the Node (FTTN), Mobile Backhaul  
By End-User: Residential, Business, Others  
By Geography: The global gigabit passive optical network market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, Asia-Pacific accounts for the largest share.

Gigabit Passive Optical Network Global Market Report 2022 is one of a series of new reports from The Business Research Company that provides gigabit passive optical network market overviews, analyzes and forecasts market size and growth for the global gigabit passive optical network market, gigabit passive optical network global market share, gigabit passive optical network global market segmentation and geographies, gigabit passive optical network global market trends, gigabit passive optical global network market players, gigabit passive optical network global market leading competitor revenues, profiles and market shares. The gigabit passive optical network global market report identifies top countries and segments for opportunities and strategies based on market trends and key competitors' approaches.

TBRC's Gigabit Passive Optical Network Global Market Report 2022 includes information on the following:

Data Segmentations: Market Size, Global, By Region and Country, Historic and Forecast, and Growth Rates for 60 Geographies

Key Market Players: Huawei, Cisco, Calix, ADTRAN, Alcatel-Lucent, Himachal Futuristic Communications, MACOM, Infiniti Technologies, Fiber Optic Telecom, Hitachi, FiberHome, DASAN Zhong, Allied Telesis, Freescale Semiconductor Inc., and ECI Telecom.

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

And so much more.
