The airport security market consists of sales of airport security by entities (organizations, sole traders, and partnerships) that refer to the procedures and methods used to protect passengers, personnel, aircraft, and airport property from harm caused by accident or malice, crime, and other dangers. Airport security is a set of measures and people and material resources aimed at protecting civil aviation from acts of unlawful interference such as terrorism, sabotage, threats to life and property, false threat communication, bombing, and so on. It tries to keep these risks at bay by using various methods of scanning.
