"We are very pleased that as a member of the contingent of IFC Nominee Directors who enrolled in our program this past June, she is being recognized with this distinction. We are even more pleased that she is the first in Brazil to do so." he continued.

"The Certificate in Risk Governance® program exceeded my expectations in terms of content, insights, and best practices," said Mrs. Hallack. "It's an outstanding program led by exceptional risk experts with large experience on boards. I highly recommend it for board members and executives that want to expand their knowledge in risk governance".

The Certificate in Risk Governance® is awarded to those who have completed The Board Members' Course on Risk® - an intensive 17-course education program and evaluation. The curriculum is designed for current and aspiring board members who seek to advance the governance of risk-taking at their organizations and those who interact with boards. Taught by some of the world's leading figures in risk governance, the program features lessons by nearly 50 board members, c-level executives, and well-known authors from five continents. No course on risk for board members as robust as this - depth, practicality, and global expertise - exists anywhere else.

Qualified Risk Directors® have gone through a rigorous evaluation process, demonstrating their expertise across business, risk, and leadership, and having sound educational backgrounds that combine to bring skills to the boardroom, unlike most.

The fundamental Duty of Care for directors around risk is to ensure that our organizations take risks well in pursuit of our goals and ambitions. This course furthers the fulfillment of that duty.
