In [The Earned Life](#), pioneering leadership coach Marshall Goldsmith, shows people how to live their own lives—not someone else's version of them. Goldsmith challenges people's unproductive attachment to outcomes and reveals the key to living unbound by regret, by helping people connect to something greater than the isolated and fleeting achievements of careerism.

Marshall Goldsmith

Taking inspiration from Buddhism, Goldsmith implores readers to accept impermanence and avoid the Great Western Disease of "I'll be happy when...". He offers practical advice for shedding the obstacles, especially our failures of imagination, that prevent people from creating their own lives. With this book as their guide, readers can close the gap between what they plan to achieve and what they actually get done.

"We are living an earned life when the choices, risks, and effort we make in each moment align with an overarching purpose in our lives, regardless of the eventual outcome," states Goldsmith. That's the definition of an earned life. But for many people, that pesky final phrase is a stumbling block: "regardless of the eventual outcome." Not being attached to the outcome goes against everything people are taught about achievement and fulfillment in modern society.

Marshall Goldsmith has been recognized as the world's leading Executive Coach and the New York Times bestselling author of many books, including *What Got You Here Won't Get You There*, *Mojo*, and *Triggers*. He received his Ph.D. from the UCLA Anderson School of Management. In his executive-coaching career, Goldsmith has advised more than 200 major CEOs and their management teams. He and his wife live in Nashville, Tennessee.
