Asia-Pacific accounted for nearly 33.0% share of the market.

PORTLAND, 5933 NE WIN SIVERS DRIVE, #205, OR 97220, UNITED STATE, September 30, 2022 /

EINPresswire.com/ -- According to a new report published by Allied Market Research titled, "[Baby feeding bottles Market](#)" by material type and distribution channel: Global

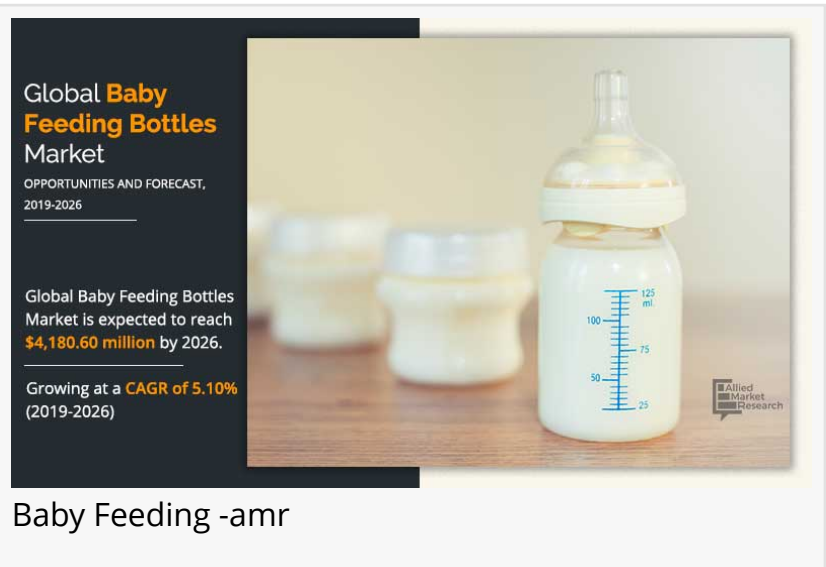

Opportunity Analysis and Industry

Forecast, 2019–2026," the global Baby feeding bottles market size was valued at \$2.8 billion in 2018, and is projected to reach \$4.2 billion by 2026, growing at a CAGR of 5.10% from 2019 to 2026. In 2018, Asia-Pacific accounted for nearly 33.0% share of the market.

Baby Feeding Bottles are one of the main type of baby care accessories that help to easy drinking of edible liquids for newborn babies. There are various advantages associated with the use of baby feeding bottles such as it can be used whenever or wherever needed, helps keep track of amount of liquid intake, it also help feed babies with lactose intolerance since they rely on formula milk, such as soy protein. Hence some of the features associated with the product help drive the growth of global baby feeding bottles market.

Request For Sample :- <https://www.alliedmarketresearch.com/request-sample/6324>

Over the past couple of years, some of the key manufacturers in global baby feeding bottles market strategize on improvising its product offerings that caters to the specific requirement of target segment. Dr. Brown's, one of the key manufacturers in global baby feeding bottles market have come up with feeding bottles under the brand name of Flow Options+ that features an internal vent system that supports digestion; the vent system also provides a consistent flow of liquid, which supports breastfeeding. Similarly, Philips Avent have come up with anti-colic bottles

with airfree vent that keeps the nipple of the bottle full during feedings so baby swallows less air. This can help reduce gas, reflux and colic. It also means baby can drink in an upright position. Hence innovation factor play an important role in driving the overall value sales baby feeding bottles market growth.

With the surge in demand for baby feeding bottles in the global market, some of the key retailers have also come up with feeding bottles tagged under their own brand. For instance, in 2016, CVS Pharmacy one of the key medical retailers in the U.S. market, launched its new line of baby feeding bottles which was promoted under its own brand name. Hence availability of baby feeding bottles under retail brands is an influential baby feeding bottles market trend.
