Key takeaways :

This IndustryARC report on the Compound Isomaltitol Market highlights the following areas -

1. Geographically, North America (Global Compound Isomaltitol market share) accounted for the highest revenue share in 2021 and it is poised to dominate the market over the period 2022-2027 owing to the surging application of sweeteners like maltitol in the North American region.
2. Global Compound Isomaltitol Market growth is being driven by the extensive application of Isomalt for the manufacture of sugar-free candy, specifically hard-boiled candy and as a sweetener and sugar substitute. However, for individuals sensitive to sugar polyols, the side

effects include diarrhea, abdominal pain, bloating and flatulence even for consumption of very tiny quantities of isomalt and these are some of the major factors hampering the growth of the Global Compound Isomaltitol Market.

3. Global Compound Isomaltitol Market Detailed Analysis of the Strengths, Weaknesses and Opportunities of the prominent players operating in the market will be provided in the Global Compound Isomaltitol Market report.
