The research provides a detailed analysis of drivers, restraints, and opportunities of the global Intelligent Pump market. These insights shower necessary guidance to determine driving factors and implement strategies to gain a sustainable growth and tap on opportunities to explore the potential of the market.

Covid-19 impact:

- Manufacturing activities of Intelligent Pump halted due to implementation of global lockdown.
- Moreover, supply chain disruptions, shortage of labor, and unavailability of raw materials created challenges in carrying out manufacturing in full capacity.
- Several construction activities were delayed in order to maintain the social distancing norms.
- The demand from end use industries reduced significantly due to halt in day-to-day operations in 2020. However, the demand would grow steadily during post-lockdown as daily operations get

back on track.

• The ban on import-export activities led to supply chain disruption and supply-demand gap. As the restrictions are lifted off, the supply chain will be restored.
