Growth in the food and beverages industry where calcium tartrate is used as a preservative propels growth of the calcium tartrate market.

OREGON, PORTLAND, UNITED STATES,
September 30, 2022 /

EINPresswire.com/ -- Growth in the food and beverages industry where calcium tartrate is used as a preservative propels growth of the [calcium tartrate market](#). Rise in awareness for health and food hygiene for packed food items where calcium tartrate is widely used to impart freshness in food items is expected to propel growth of the calcium tartrate market. Moreover, rise in production of tartaric acid where calcium tartrate is used as a major raw material is expected to lead the calcium tartrate market to witness a significant growth. However, addition of calcium tartrate in a certain group of wines reduces their stability, which hampers growth of the calcium tartrate market in the wine.

China, the leading manufacturer of calcium tartrate, was first to be affected by the COVID-19 pandemic, which has led to decline in the supply of calcium tartrate due to huge economic loss and decrease in manpower.
