

# Stone Forensics Launches Free Guide on How to Clean and Sanitize Floors After a Flood

*Cleaning up after Hurricane Ian*

FT MEYERS, FL, US, September 30, 2022 /EINPresswire.com/ -- Stone Forensics, This free guide will show you how to clean up your stone, tile, and other hard surface flooring after a flood from a storm or leak.

The guide will be available on September 30, 2022 to everyone worldwide. It includes important information about proper sanitization, chemicals, moisture control, using a dehumidifier, and getting rid of deep-down moisture, as well as advice on what you need for your insurance company to file a claim and a bonus guide on determining whether the flood caused permanent damage.

"Improper cleaners and sanitizers can ruin a floor. Follow these methods, using everyday household chemicals to properly clean up the mess," said Fred Hueston, Biologist of Stone Forensics.

## About Us:

Stone Forensics is a leading consulting firm specializing in stone and tile failures. We also offer training, expert witness services as well as numerous other stone and tile related. Our founder, Fred Hueston is well known throughout the world and host a weekly podcast called the stone and tile show.
