SOC 2 is the leading industry standard regarding security compliance and the most commonly required and accepted way to demonstrate security when conducting business in the United States. Created by the American Institute of CPAs (AICPA), the report assures customers, partners, and investors that a business has a solid baseline of security and data protection guidelines in place.

"mxHERO is committed to protecting our own networks and customer data so we can responsibly grow and remain competitive," said Alexis Panagides, CEO, mxHERO, Inc. "Partnering with Vanta on SOC 2 compliance helped us build a foundation for ensuring data security and privacy, which will only become more important as we scale. Earning a SOC 2 certification is important to demonstrate the platform's security for customers and investors."

"Our commitment to our customer's email security is a core tenant of mxHERO, and we are proud to have obtained our SOC 2 compliance certification showcasing our ongoing commitment to process excellence, information security, and the integrity of our Mail2Cloud platform," added Donald R. Hammons, Executive Vice President and Chief Customer Officer, mxHERO Inc.
