

Surgical Lights Market Size Analysis by Key Players Focusing on Growth Strategies Outlook 2026

Surgical lights market report provides a quantitative analysis of the market segments, current trends, estimations, and dynamics.

PORTLAND, OREGON, UNITED STATES, October 3, 2022 /

EINPresswire.com/ -- [Surgical lights industry](#) was estimated at \$2.71 billion in 2018, and is projected to garner \$3.83 billion by 2026, registering a CAGR of 4.5% from 2019 to 2026. Significant rise in surgical procedures, and surge in technological developments in surgical lights drive the growth of the global surgical lights market. On the other hand, high cost of LED lights restrains the growth to some extent. However, various growth opportunities in emerging economies are expected to create a number of opportunities in the industry.

Key players in the market :

- CV Medical
- Getinge AB
- A-dec Inc
- Herbert Waldmann GmbH & Co
- Hill-Rom Services
- BihlerMED
- S.I.M.E.O.N
- Medical GmbH & Co. KG
- Steris plc
- Skytron

Based on type, the halogen segment accounted for more than half of the global surgical lights market share in 2018, and is expected to rule the roost by the end of 2026. This is due to its wide usage in the hospital and ambulatory settings. On the other hand, the LED segment is projected to register the fastest CAGR of 4.6% during 2019–2026.

Based on application, the cardiac surgery segment accounted for nearly one-fifth of the global

surgical lights market revenue in 2018, and is anticipated to maintain the lion's share from 2019 to 2026. In addition, the same segment is expected to grow at the fastest CAGR of 5.3% throughout the forecast period. The increased incidence of cardiovascular disorders and surge in surgical procedures for their treatment have fueled the growth of the segment. The market also analyses segments including gynecological surgery, neurosurgery, and ENT surgery.

Based on geography, North America held the major share in 2018, garnering more than one-third of the global surgical lights market, owing to rise in prevalence of disorders such as cardiac diseases and gynecological diseases, among others. At the same time, the Asia-Pacific region would register the fastest CAGR of 5.3% during the study period. This is due surge in demand for healthcare infrastructure, rise in number of hospitals in emerging countries, increase in healthcare reforms, and increase in technological advancements in the field of healthcare.
