

# Move East New York Announces Its Guaranteed Price Quote This Moving Season

*Move East New York has announced its guaranteed price quote for California to New York moves.*

NEW YORK, NEW JERSEY, USA, October 3, 2022 /EINPresswire.com/ -- Move East New York has announced its guaranteed price quote for California to New York moves. This moving company says that once a quote is prepared, the price remains the same and will not fluctuate. The company hopes to bolster transparency in an industry mired by price plays.

“Preparing to move never really prepares you for the actual moving cost,” said the head of moving teams at Move East NYC. “Moving has lots of

costs which could jump out at you throwing all your plans into disarray. You can never really be well prepared for a long-distance move if you do not know how much it will cost you. That is why we offer our customers a guaranteed price quote when they come to us for our moving services.

Our guaranteed price quote simply means that we take into consideration the volume and weight of your items, plus all the moving services you will need from us. We then prepare a cost based on these parameters. Rarely does anything ever change. And this way, we give our customers peace of mind because they can start planning with the knowledge of how much their move will cost.”

Moving is expensive. There is no doubt about that. The further the distance one is moving, the more expensive the move is bound to be. [Moving from LA to NYC](#) is one of those long-distance moves that is bound to rack quite a bill

if one does not prepare adequately for it.

One of the most important things to have from the get-go is the cost of relocation. An [NYC moving company cost](#) will take into consideration a lot of variables before giving the full cost details of the move. The most common items that will be tabulated in a moving estimate include the cost of packing materials, moving services rendered (e.g. packing), distance to be covered (mileage), as well as the weight and volume of the items to be shipped.

It is vital to choose a moving company that has transparent moving estimates. [Moving from California to New York](#) will likely attract a storage cost as well if a client is moving to a smaller place or needs more time to settle down before taking in all their items. Keeping these parameters in mind will help one to plan well for the cost of moving.
