Recent Development

In March 2021, Bausch Health Companies Inc. and its Solta Medical business has announced the launch of the Clear + Brilliant Touch laser that delivers a customized and more comprehensive treatment protocol to patients of all ages and skin types. This product is known as company's next-generation Clear + Brilliant laser in the U.S market

Market Outline: -

Aesthetic procedures are used for various conditions such as acne, acne scars, wrinkle, dark spots, mole spots, and many other issues. These products can enhance the beauty of the face via reducing facial tanning, discoloration, acne among others. Various facial aesthetic products include dermal fillers, botulinum toxin, microdermabrasion, and chemical peels among others. Moreover, these implants are used to enhance the different parts of the body. Implants include breast implants and facial implants, among others. They are generally made from skin, bone, tissues, metal, plastic, ceramic, and other materials.

North America aesthetic devices market is driven by the factors such as, rising geriatric population, increase in the prevalence minimally invasive procedures and growing technological advancements in aesthetic devices which enhance its demand as well as increasing investment in research and development leads to the market growth. Currently, healthcare expenditure has increased across developed and emerging countries that is expected to create a competitive advantage for manufacturers to develop new and innovative aesthetic devices.

Increasing use of minimally invasive procedures has been shifted as compared to traditional methods for aesthetic and cosmetics surgeries techniques including laser and other energy-based devices. For the use of surgical or non-surgical procedures, specially-designed instruments have been developed for minimally used procedures. These anti-aging devices help in reducing the visual effects of skin aging by revitalizing and tightening the skin, which gives a younger look. Minimally-invasive energy-based treatments for skin tightening, wrinkle reduction, face contouring, and skin rejuvenation have a high demand in the world. However, the high cost associated with the aesthetic surgery procedure and side effects associated with the aesthetic surgery devices are expected to hamper the growth for aesthetic devices market.

North America aesthetic devices market report provides details of market share, new developments, and product pipeline analysis, impact of domestic and localized market players, analyses opportunities in terms of emerging revenue pockets, changes in market regulations, product approvals, strategic decisions, product launches, geographic expansions, and technological innovations in the market. To understand the analysis and the market scenario contact us for an analyst brief, our team will help you create a revenue impact solution to achieve your desired goal. The scalability and business expansion of the retail units in the developing countries of various region and partnership with suppliers for safe distribution of machine and drugs products are the major drivers which propelled the demand of the market in

the forecast period.

Some of the major players operating in the North America Aesthetic Devices market are

Allergan (A Subsidiary Of AbbVie Inc.), Mentor Worldwide LLC (A SUBSIDIARY OF JOHNSON & JOHNSON SERVICES, INC), Shanghai Fosun Pharmaceutical Group Co., Ltd, Bausch Health Companies Inc, Candela Medical, Cutera, Cynosure (A Subsidiary Of Hologic Inc.), LUTRONIC INC, BTL, Medytox, SharpLight Technologies Inc, Aerolase Corp, Suneva Medical, AirXpanders, Inc., Lumenis Be Ltd., Venus Concept, Sientra, Inc, Merz North America, Inc., GC Aesthetics, among others
