

# THE VICE FUND (SYMBOL: VICEX) REMAINS INVESTED IN THE GAMBLING INDUSTRY

BOSTON, MA, USA, October 7, 2022

/EINPresswire.com/ -- During the pandemic, a meteoric rise in the popularity of online gambling occurred. [The Vice Fund](#) (symbol: VICEX) currently invests in the gambling industry and remains committed to investing in the industry.

The recent popularity of online gambling may demonstrate the infiltration of new markets for the gambling industry. This increase in popularity can be partially attributed to an increase in accessibility to gambling and casinos that occurred during the pandemic lockdowns.

The Vice Fund concentrates at least 25% of its net assets in this group of four vice industries (but no more than 80% of its net assets in any single industry). "Vice industries" are those industries whose focus, in the Adviser's assessment, may be morally questioned by members of the general public or face funding or regulatory challenges because of social disapproval.

In addition, under normal market conditions, the Vice Fund invests in at least three countries (one of which may be the United States) and invests at least 40% of its total assets at the time of purchase in non-U.S. companies. The Vice Fund also recently added exposure to both cannabis and psychedelics.

Over the past two decades, the fund changed its name for short periods of time. It was briefly renamed as the Vitium Global Fund, because Vitium, which is the Latin for Vice, was a slick way for the fund to calm its politically correct naysayers. It seems the Fund is no longer trying to tip-toe around, recently adding both cannabis and psychedelics to its holdings.

## IMPORTANT RISK INFORMATION:

Mutual fund investing involves risk; principal loss is possible. The Fund will concentrate its net assets in industries that have significant barriers to entry including the alcoholic beverages, tobacco, gaming and defense/aerospace industries, the Fund may be subject to the risks

affecting those industries, including the risk that the securities of companies within those industries will underperform due to adverse economic conditions, regulatory or legislative changes or increased competition affecting those industries, more than would a fund that invests in a wide variety of industries. The Fund invests in foreign securities which involve greater volatility and political, economic and currency risks and differences in accounting methods. The Fund invests in smaller companies, which involve additional risks, such as limited liquidity and greater volatility. Derivatives may involve certain costs and risks such as liquidity, interest rate, market, credit, management and the risk that a position could not be closed when most advantageous. Investing in derivatives could result in losing more than the amount invested. If a security sold short increases in price, the Fund may have to cover its short position at a higher price than the short sale price, resulting in a loss.
