

Pressure Monitoring Devices Market to Reach USD 2.62 billion by Forecast 2029 with 7.2% CAGR

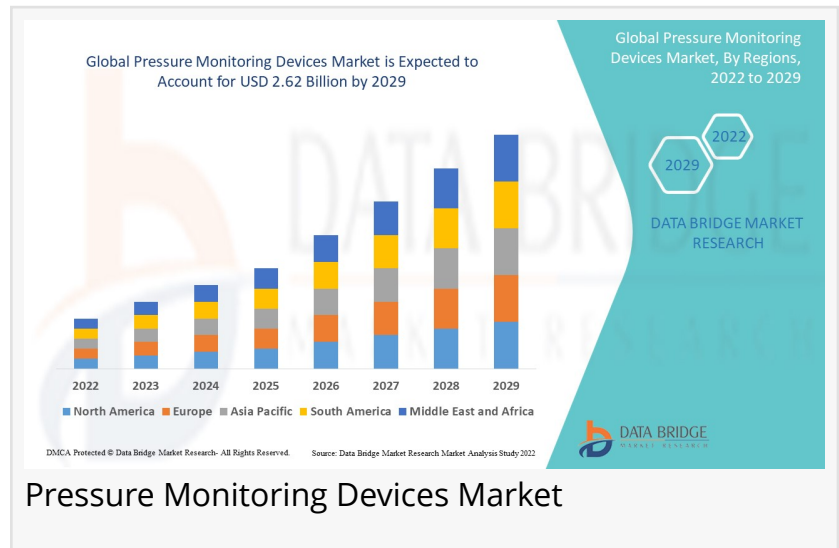

Pressure Monitoring Devices Market is segmented on the basis of product, procedure, application and end user

PUNE, MAHARASHTRA, INDIA, October 4, 2022 /EINPresswire.com/ -- The finest [Pressure Monitoring Devices Market](#) survey report provides an all-inclusive and accurate research study on the global market while chiefly focusing on current and historical market scenarios. The subject matter experts and team of highly-skilled researchers have put in hours of work to pull together this authentic market research report. According to the market report, driving factors are anticipated to have a huge impact on the development of market in the coming years. The overviews, SWOT analysis and strategies of each vendor in the market provide understanding about the market forces and how those can be exploited to create future opportunities.

Data Bridge Market Research analyses that the [pressure monitoring devices](#) market was valued at USD 1.5 billion in 2021 and is likely to reach 2.62 billion by 2029, and is expected to grow at a CAGR of 7.2% during the forecast period of 2022 to 2029.

Pressure monitoring devices are essential in the measurement and monitoring of hypertension. The pulse-checking devices are extremely accurate, allowing doctors and healthcare professionals to treat patients appropriately. SunTech Medical Inc., Omron Healthcare, Inc., and others have launched a variety of innovative pressure monitoring devices in recent years, not only for detecting blood pressure but also for detecting temperature, heart rate abnormalities, vital signs, and more.

A sophisticated Pressure Monitoring Devices market analysis report highlights numerous facts such as development factors, business enhancement strategies, statistical growth, financial gain or loss to help readers and clients understand the market on a global scale. To generate this world-class business report, the combination of best industry insight, practical solutions, talent solutions, and latest technology have been used.

Pressure Monitoring Devices Market Dynamics Drivers

Rise in the elderly population

Diabetes and chronic diseases are becoming more common as the geriatric population grows. As a result, portable and wireless gadgets are in high demand among both patients and caregivers which is further anticipated to propel the growth of the pressure monitoring devices market.

Technological developments

Constant technological advancements in the consumer healthcare segment, such as advances in wearable technology, apps, and mobiles, a declining average selling price for retailers and manufacturers, and rising penetration in the professional market are the factors will further accelerate the market growth.

Shift of Patients from Hospital Care to Home Care Settings

Growing cases of patients using home care devices, and observing a shift from hospital care to home settings which is further enhancing the growth of the market.

Opportunities

In addition, increase in the incidence of chronic disorders such as hypertension is further estimated to provide potential opportunities for the growth of the pressure monitoring devices market in the coming years.

Restraints/Challenge

On the other hand, the increased cost of technological advancement is further projected to impede the growth of the pressure monitoring devices market in the targeted period. However, the dangerous effects of certain pressure monitoring devices might further challenge the growth of the pressure monitoring devices market in the near future.

Segmentation : [Global Pressure Monitoring Devices Market](#)

The pressure monitoring devices market is segmented on the basis of product, procedure, application and end user. The growth amongst these segments will help you analyze meager growth segments in the industries and provide the users with a valuable market overview and market insights to help them make strategic decisions for identifying core market applications.

By Product

Blood Pressure Monitors

Pulmonary Pressure Monitors

Intraocular Pressure Monitors

Intracranial Pressure Monitors

On the basis of product, the pressure monitoring devices market is segmented into blood pressure monitors, pulmonary pressure monitors, intraocular pressure monitors and intracranial pressure monitors. Blood pressure monitors have further been sub segmented into automated blood pressure monitors, ambulatory blood pressure monitors, sphygmomanometers and blood pressure transducers. Pulmonary pressure monitors have further been sub segmented into oximeters, capnograph and spirometers.

By Procedure

Invasive Monitoring Devices

Non-invasive Monitoring Devices

On the basis procedure, the pressure monitoring devices market is segmented into invasive monitoring devices and non-invasive monitoring devices. Invasive monitoring devices have further been sub segmented into external ventricular drainage and micro-transducer monitor. Non-invasive monitoring devices have further been sub segmented into transcranial Doppler ultrasonography, optic nerve sheath displacement, MRI/CT, tympanic membrane displacement (TMD) and fundoscopy (papilledema).

By Application

Respiratory Disorders

Glaucoma

Cardiac Disorders

Neurological Disorders

Dialysis

Others

On the basis application, the pressure monitoring devices market is segmented into respiratory disorders, glaucoma, cardiac disorders, neurological disorders, dialysis and others.

By End user

Hospitals

Home Care Settings

Ambulatory Surgical Centers and Clinics

Diagnostic Laboratories

Other

On the basis of end user, the pressure monitoring devices market is segmented into hospitals, home care settings, ambulatory surgical centers and clinics, diagnostic laboratories and other.

Major Market Competitors/Players

Withings (France)

Koninklijke Philips N.V. (Netherlands)

American Diagnostic Corporation (US)

General Electric Company (US)

Welch Allyn (US)

Omron Corporation (Japan)

A&D Company, Limited (Japan)

SunTech Medical, Inc., (US)

Drägerwerk AG & Co. KGaA (Germany)

Siemens (Germany)

Medtronic (Ireland)

Rossmax International Ltd. (Taiwan)

GF Health Products, Inc. (US)

OSI Systems, Inc. (US)

NIHON KOHDEN CORPORATION (Japan)

Attractions of The Pressure Monitoring Devices Market Report: -

Latest market dynamics, development trends and growth opportunities are presented along with industry barriers, developmental threats and risk factors

The forecast Pressure Monitoring Devices Market data will help in the feasibility analysis, market size estimation and development

The report serves as a complete guide which micro monitors all vital Pressure Monitoring Devices Market

A concise market view will provide ease of understanding.

Nut Oil Market Competitive market view will help the players in making a right move

Key Questions Answered

What impact does COVID-19 have made on Global Pressure Monitoring Devices Market Growth & Sizing?

Who are the Leading key players and what are their Key Business plans in the Global Pressure Monitoring Devices Market?

What are the key concerns of the five forces analysis of the Global Pressure Monitoring Devices Market?

What are different prospects and threats faced by the dealers in the Global Pressure Monitoring Devices Market?

What are the strengths and weaknesses of the key vendors?

Reasons to Purchase this Report:

Market segmentation analysis including qualitative and quantitative research incorporating the impact of economic and policy aspects

Regional and country level analysis integrating the demand and supply forces that are influencing the growth of the market.

Market value USD Million and volume Units Million data for each segment and sub-segment

Competitive landscape involving the market share of major players, along with the new projects and strategies adopted by players in the past five years

Comprehensive company profiles covering the product offerings, key financial information, recent developments, SWOT analysis, and strategies employed by the major market players

Table of Content:

Part 01: Executive Summary

Part 02: Scope of The Report

Part 03: Global Pressure Monitoring Devices Market Landscape

Part 04: Global Pressure Monitoring Devices Market Sizing

Part 05: Global Pressure Monitoring Devices Market Segmentation By Product

Part 06: Five Forces Analysis

Part 07: Customer Landscape

Part 08: Geographic Landscape

Part 09: Decision Framework

Part 10: Drivers and Challenges

Part 11: Market Trends

Part 12: Vendor Landscape

Part 13: Vendor Analysis

New Business Strategies, Challenges & Policies are mentioned in Table of Content, Request TOC @ <https://www.databridgemarketresearch.com/toc/?dbmr=global-pressure-monitoring-devices-market>

About Us:

An absolute way to forecast what future holds is to comprehend the trend today!

Data Bridge Market Research set forth itself as an unconventional and neoteric Market research and consulting firm with an unparalleled level of resilience and integrated approaches. We are determined to unearth the best market opportunities and foster efficient information for your business to thrive in the market.

Data Bridge Market Research provides appropriate solutions to complex business challenges and initiates an effortless decision-making process.
