

# Coming Soon to Culver-Stockton College: Royal Horizon Beauty Supply Vending Machine

*Minority Students to Gain Access to Health and Beauty Products Via Customized Vending Machine at Culver-Stockton College in 2023*

CANTON, MISSOURI, USA, November 1, 2022 /EINPresswire.com/ -- An exciting new upgrade will be arriving at Culver-Stockton College in 2023! Entrepreneur and C-SC legacy alumna, Radazaih Whittington is addressing the lack of health and beauty products available to minority students by bringing the Royal Horizon Beauty Supply Vending Machine to campus in January 2023.

Culver-Stockton College is a predominantly white institution, in a rural area leaving minority students with limited access to beauty, skin, hair, and health products on campus. While attending C-SC, Whittington personally experienced this struggle and now hopes to combat it with the Royal Horizon Beauty Supply Vending Machine.

The new machine will help minority students gain access to products they know and love. Royal Horizon's motto, "Embracing your royalty, conveniently," comes from Whittington's desire to help everyone feel like they belong.

"Trying to find health and beauty products was always a hassle for me," says Whittington during her time at C-SC. "It made me feel like I had no sense of belonging. I wanted to resolve two key issues: access and inconvenience. That's why I founded [Royal Horizon Vending](#): to make sure everyone knows that they belong and don't have to drive miles away to access the products they need to make them feel at their best, all of the time."

Additionally, this new machine will prevent students from needing to find transportation to and from stores farther away from campus helping them to save time and money. To further support minority students' needs, Whittington will donate funding to the C-SC Black Student Union each

school year.
