Full Release:

Mom's Choice Awards® (MCA) evaluates products and services created for

children, families, and educators. The program is globally recognized for establishing the benchmark of excellence in family-friendly media, products and services. The evaluation process uses a proprietary methodology in which entries are scored on a number of elements including production quality, design, educational value, entertainment value, originality, appeal and cost.

"Our aim is to introduce families and educators to best-in-class products and services," explains Dawn Matheson, Executive Director of the Mom's Choice Awards®. "We are passionate about helping families grow emotionally, physically and spiritually. Parents and educators know that products and services bearing our seal of approval are high-quality, great value purchases. The MCA evaluation program is designed to incorporate the expertise of scientists, physicians and other specialists; but we also engage parents, children, educators, and caregivers because they are experts in knowing what is best for their families."
