COVID-19 Impact Analysis:

The pandemic has led to increase the demand for drugs and APIs, those used against malaria are most in the demand and then antibiotics and antivirals. A second wave of deficiency is observed among various diseases patients which is needed to care. As the pandemic progresses, the manufacturer of generic drugs work around the clock to ensure American patients have access to drugs they need.

Growth Factors

Globally, the market for the generic drug has been propelled by new government initiatives to produce generic drugs and mainly to promote the use of generic drugs against chronic diseases. Patent expiration of branded drugs is one of the key influencers for the growth and prime reason for generating more revenue for generic drugs market. Moreover, new emerging markets of developing countries and low cost of generic drugs are majorly responsible for thickening the growth of generic drugs market.
