Geographically, the global central lab market is segmented into five major regions comprising of North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. The market in the North America region is estimated to witness significant growth over the forecast period on the back of increasing awareness in patients regarding the importance of clinical tests, escalating occurrences of chronic and infectious illnesses, and a noteworthy ratio of research and development in the region.

The research is global in nature and covers detailed analysis on the market in North America (U.S., Canada), Europe (U.K., Germany, France, Italy, Spain, Hungary, Belgium, Netherlands & Luxembourg, NORDIC [Finland, Sweden, Norway, Denmark], Poland, Turkey, Russia, Rest of Europe), Latin America (Brazil, Mexico, Argentina, Rest of Latin America), Asia-Pacific (China, India, Japan, South Korea, Indonesia, Singapore, Malaysia, Australia, New Zealand, Rest of Asia-Pacific), Middle East and Africa (Israel, GCC [Saudi Arabia, UAE, Bahrain, Kuwait, Qatar, Oman], North Africa, South Africa, Rest of Middle East and Africa). In addition, analysis comprising market size, Y-O-Y growth & opportunity analysis, market players' competitive study, investment opportunities, demand for future outlook etc. has also been covered and displayed in the research report.

Worldwide Increasing Surge in Numerous Genetic Disorders to Drive the Market Growth

Over 6,010 clinically defined rare diseases exist, and 72% of these disorders are genetic.

Typically, a genetic disorder occurs by one or more deformities in the genome. Such disorders include a wide range of chronic diseases and birth defects hereditary from one or both parents. Genetic disorders are a major cause of impairment, death, and desolation in humans. Thousands of distinct genetic disorders with characterized clinical symptoms have been identified up to now, still we need more exploration to understand and to formulate a significant treatment to get relieve from such syndromes. Therefore, numerous clinical studies and trials have been running throughout the world to set a benchmark in the clinical research and this factor is fueling up the growth of global central lab market.
