According to the American dental association (ADA) 2018, estimates there were about 10,658 orthodontists practicing in the United States which translates to about 3.27 orthodontists per every 100,000 populations. Orthodontic treatment can help to improve the appearance and alignment of crooked and protruding teeth, as well as teeth bite issues.

The Removable braces segment dominated the market due to the high prevalence of malocclusion and growing patient awareness of the benefits of removable braces, as well as the presence of well-established players with strong removable brace offerings. Data Bridge Market Research analyses that the orthodontic supplies market was valued at USD 5.4 billion in 2021 and is further estimated to reach USD 11.24 billion by 2029, and is likely to grow at a CAGR of 9.6% and at a during the forecast period of 2022 to 2029.

Global Orthodontic Supplies Market Definition

Orthodontic supplies are medical products that are specifically designed for orthodontic procedures and orthodontics. These appliances are intended to assist orthodontists in providing better healthcare services and treatments. This medical specialty is concerned with the prevention, detection, and treatment of abnormal facial growth and jaw misalignment

Orthodontic Supplies Market Dynamics

Drivers

Major factors that are expected to boost the growth of the orthodontic supplies market in the forecast period are as follows:

Rise in the number of oro-dental problems

Increasing number of patients with malocclusions, jaw diseases, tooth decay/tooth loss, and jaw pain will act as major driver influencing the orthodontic supplies market growth rate.

Increasing disposable incomes

Growing disposable income has enabled the population to gain access to dental care services, which will drive demand for the orthodontic supplies market even further.

Constant technological developments

The consistent pace of technological developments which has resulted in a significant reduction in treatment time and associated pain, while treatment outcomes and efficiencies have

improved significantly over the years, has been and will continue to be a major growth influencing factor in the orthodontic supplies market.

Opportunities

In addition, the growing usage of social media by patients/parents and dental professionals are further estimated to provide potential opportunities for the growth of the orthodontic supplies market in the coming forecast period of 2022 to 2029.

Restraints/Challenges Global Orthodontic Supplies Market

On the other hand, the increased cost of advanced orthodontic treatments in certain countries is further projected to impede the growth of the orthodontic supplies market in the targeted period. However, the lack of trained dental practitioners might further challenge the growth of the orthodontic supplies market in the near future.

This orthodontic supplies market report provides details of new recent developments, trade regulations, import-export analysis, production analysis, value chain optimization, market share, impact of domestic and localized market players, analyses opportunities in terms of emerging revenue pockets, changes in market regulations, strategic market growth analysis, market size, category market growths, application niches and dominance, product approvals, product launches, geographic expansions, technological innovations in the market.
