

Artificial Intelligence (AI) in Drug Discovery Market Exhibiting Tremendous CAGR of 53.3% During the Forecast 2029

global Artificial Intelligence (AI) in drug discovery market is expected to reach the value of USD 24,618.25 million by 2029, at a CAGR of 53.3% .

NEW YORK, INDIA, October 6, 2022

/EINPresswire.com/ -- The first type

Artificial Intelligence (AI) in Drug

Discovery Market lookup document

studies a number parameter at some

stage in the document which analyses

the market popularity in detail. It gives

key measurements, fame of the

producers and is a predominant supply

of course for the corporations and organizations. Such market insights can be done with this complete market file which takes into account all the factors of present day and future market. In addition, world Artificial Intelligence (AI) in Drug Discovery Market record predicts the measurement of the market with data on key supplier revenues, improvement of the enterprise by way of upstream & downstream, enterprise progress, key companies, section type, & market application.

The most excellent [Global Artificial Intelligence \(AI\) in Drug Discovery Market](#) file cautiously research market definition, market segmentation, aggressive evaluation and key trends in the market. This market lookup file consists of latest, complete and most updated market records and a valuable data. The document offers the market insights which assist to have a greater particular grasp of the market landscape, problems that may additionally impose on the enterprise in the future, and how to role particular manufacturers in the first-class way. It additionally Research the market status, increase rate, future trends, market drivers, possibilities and challenges, dangers and entry barriers, income channels, and distributors with the assist of SWOT evaluation and Porter's Five Forces Analysis.

The Artificial Intelligence (AI) in Drug Discovery marketing report provides you with specific and current information about the needs, preferences, ideas and tastes of consumers regarding a product. This information is helpful in planning the best advertising and sales promotion strategies and helps you make informed decisions. This report is high quality market research information, which has been compiled through transparent research. The report was created using the best industry experience, talent solutions, and industry knowledge in a comprehensive and efficient manner.

Data Bridge Market Research analyzes that the global Artificial Intelligence (AI) in drug discovery market is expected to reach the value of USD 24,618.25 million by 2029, at a CAGR of 53.3% during the forecast period.

The most popular market segments:

By Application

(Novel Drug Candidates, Drug Optimization and Repurposing Preclinical Testing and Approval, Drug Monitoring, Finding New Diseases Associated Targets and Pathways, Understanding Disease Mechanisms, Aggregating and Synthesizing Information, Formation & Qualification of Hypotheses, De Novo Drug Design, Finding Drug Targets of an Old Drug and Others),

Technology

(Machine Learning, Deep Learning, Natural Language Processing and Others),

Drug Type

(Small Molecule and Large Molecule),

Some of the key players operating in the market are NVIDIA Corporation, IBM Corp., Atomwise Inc., Microsoft, Benevolent AI, Aria Pharmaceuticals, Inc., DEEP GENOMICS, Exscientia, Cloud, Insilico Medicine, Cyclica, NuMedii, Inc., Envisagenics, Owkin Inc., BERG LLC, Schrödinger, Inc., XtalPi Inc. and BIOAGE Inc. among others.

Artificial Intelligence (AI) in Drug Discovery Market Report Answers Key Questions

Q1. Who are the top five players in the Artificial Intelligence (AI) in Drug Discovery market?

Q2. What will happen to the “Artificial Intelligence (AI) in Drug Discovery ” market in the next five years?

Q3. Which product or application will capture the largest share of the “Artificial Intelligence (AI) in Drug Discovery ” market?

Q4. What are the driving forces and constraints of the Artificial Intelligence (AI) in Drug Discovery market?

Q5. Which Artificial Intelligence (AI) in Drug Discovery market in the region will see the highest growth?

Q6. What are the CAGR and market size for 'Artificial Intelligence (AI) in Drug Discovery ' during the forecast period?

Artificial Intelligence (AI) in Drug Discovery Market Demand, Future Scope Analysis, Challenges and Opportunities

The 'Artificial Intelligence (AI) in Drug Discovery ' Market offers analysis and information on the key factors that will dominate during the forecast period. It also provides insights into the market's impact on growth. The Artificial Intelligence (AI) in Drug Discovery market is growing due to increased demand from global end-use sectors.

Market growth will be hampered by high costs associated with research and development and the use of long-established technology. The Artificial Intelligence (AI) in Drug Discovery market will be challenged in the forecast period 2022-2029 for cost trade-offs that do not compromise quality or reliability.

This Artificial Intelligence (AI) in Drug Discovery Market report provides information on recent developments, trade regulations, and production analysis. It also analyzes opportunities. In terms of emerging revenue pockets and changes in market regulation, strategic market growth analysis. Market size, category growth. Application and market niches. Product approvals. Product's release. Innovation technologies in the market.

Why should you buy the Artificial Intelligence (AI) in Drug Discovery Market Report?

□ You can build your business strategy by identifying attractive and high growth Artificial Intelligence (AI) in Drug Discovery market categories.

□ Create a competitive strategy based on the competitive landscape.

- Design capital investment strategies based on forecasted high-potential segments
- Identify potential business partners, acquisition targets, and business buyers.
- You can plan a new product launch and inventory in advance.
- Use the Artificial Intelligence (AI) in Drug Discovery market data to prepare strategic and management presentations
