To shed light on the scams created and circulated by startup swindlers, the members of the Board of Directors of Molo9™ have agreed, to publish their founder's

proprietary profitability framework to the public web for free.

"There is this myth that it takes up to three years for a new company to make the first sale. This is simply not accurate, but swindlers propagate this lie to drain hard-working families of their life-savings under false pretenses," explained one spokesperson for Molo9™.

The decision passed by the board this week, will make an eleven year old guarded secret available to anyone with internet access. You can now download a free guide on how to use the profitability framework here: <https://www.molo9.com/startups/>
