Rise in demand for cloud-based EAM solutions among enterprises to optimize quality and utilization of assets throughout their lifecycle drives the global enterprise asset management market. However, high cost of software and lack of awareness in developing countries hinder the market growth. On the contrary, surge in acceptance of advanced technologies across industrial verticals and technological advancements would open new opportunities in the future.

Covid-19 Scenario:

- The Covid-19 pandemic positively affected the market. As major enterprises suffered huge losses during lockdown, they needed to focus on trimming costs, securing liquidity, and generating savings. This increased the demand for EAM software.
- Moreover, enterprise asset management proved to be important during the pandemic as companies need to optimize processes and increase efficiency of limited resource at their disposal.
