

OATI's Premier Power-Generation Planning System Demonstrated during Webinar

Experts showed how webSmartBid™ streamlines offer strategies and optimizes bids

MINNEAPOLIS, MINNESOTA, USA, October 6, 2022 /EINPresswire.com/ -- Open Access Technology International, Inc. (OATI), conducted a webinar today to demonstrate [webSmartBid™](#),

“

Our innovative, power-generation, offer-strategy technology removes all guesswork out of power-generation planning, energy bid optimization and successful participation in wholesale power markets”

Sasan Mokhtari, Ph.D.

the energy industry's premier power-generation planning and bid selection system. The innovative OATI webSmartBid™ solution allows energy-generation merchants to manage all facets of power generation planning, including optimizing operations to minimize costs, maximize profits, ensure all ancillary service requirements are met, approve and submit generation offers and load bids in Real-Time or Day-Ahead markets.

“Our innovative, power-generation, offer-strategy technology removes all guesswork out of power-generation planning, energy-bid optimization, and

successful participation in wholesale power markets,” says Sasan Mokhtari, Ph.D., OATI President, and CEO. “In this webinar, we demonstrated how this technology gives our customers an edge in the wholesale energy market to optimize profitability and ancillary services for their entire generation fleet.”

During the webinar, OATI's energy trading and risk management experts showed how the solution works, answered questions and highlighted its best features, such as:

- Planning Real-Time and Day-Ahead Power Generation
- Optimizing both Energy and Ancillary Services
- Importing Essential Forecasted Data as Input
- Performing Cost Minimization Analysis
- Performing Profit Maximization Analysis
- Approving and Exporting the Optimized Solution

“No other company has the technology and customer service to match OATI in energy trading and risk management, to include our webSmartBid technology,” says Dr. Mokhtari. “We're proud of our many continual investments in new technology, which create huge benefits for our customers and transform the business of energy.”
