

# MethodHub's CDAF ( Custom Digital Access Framework) enables enterprises get more throughput from SAP

*SAP users can get a range of benefits, including faster implementation, better performance, better connectivity to other tools and apps*

HOUSTON, TEXAS, USA, October 6, 2022 /EINPresswire.com/ -- MethodHub has launched its CDAF ( Customer [Digital Access](#) Framework) to help enterprises using [SAP](#) get more throughput, and hence better ROI and cost savings on the SAP investments.

Implementing the CDAF would

- Simplify and accelerate your SAP processes
- Improves user productivity and process output

Getting better and faster return on your SAP investments"

*Aho Bilam*

- Simplifies complex inter-process workflow
- Increases SAP process throughput
- Provides Seamless modern user-friendly integration
- Provides Seamless integration with other enterprise apps

Here is a pictorial representation of hidden costs involved

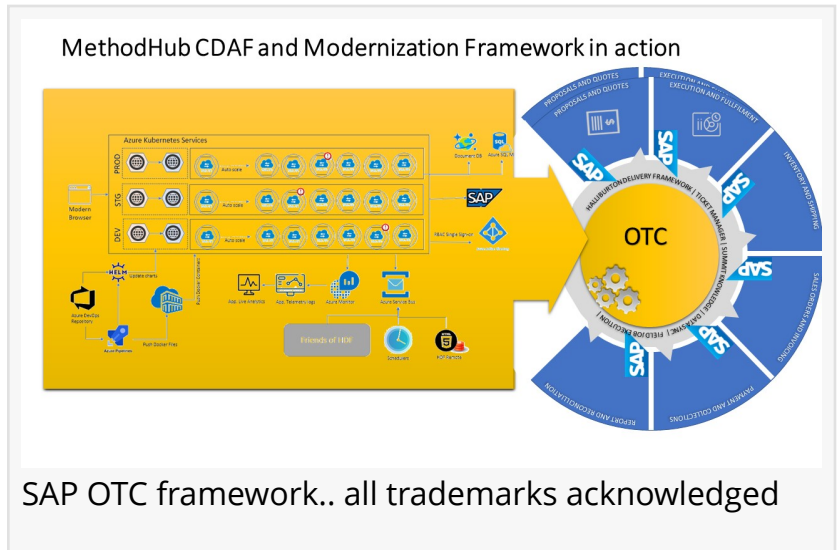

and potential savings. MethodHub has use cases in [energy](#) and retail but this is a generic framework which would be relevant to other verticals as well.
