The report includes regional and global Cough Remedies Market analysis, key players, market segments, application areas and Market growth strategies.

PORTLAND, OREGON, UNITED STATES, October 6, 2022 /EINPresswire.com/ -- A cough is caused by a response when the respiratory system attacks certain antigens that enter the body, including dust, bacteria, viruses or other irritants in the respiratory tract. This creates an immune response that causes respiratory problems; alveoli become blocked with fluid or lead to the formation of pus. Depending on the severity of the cough, medicine will be given. For example, if a person suffers from a dry cough, expectorants are recommended. Cough is caused by bacteria, fungi, viruses and other bacteria-like things.
