[Key Trends In The Enterprise WLAN Market](#)

The emergence of the Wi-Fi 6 standard (802.11ax) is the latest trend gaining popularity in the enterprise WLAN market. The latest Wi-Fi standard is capable of offering benefits such as higher data rates, improved power efficiency, increased capacity, and better performance in environments with multiple connected devices.

[Overview Of The Enterprise WLAN Market](#)

The enterprise WLAN (wireless local area network) market consists of sales of enterprise WLAN network devices and services by entities (organizations, proprietorship, partnerships) that use radio wireless connections (Wi-Fi), instead of using traditional cables to connect to the internet. Enterprise WLAN is a device that helps to link two or more wireless devices using wireless communication and provide mobility to the network users. It utilizes radio communication while connecting to the wired network within a limited area such as a work campus, or office building.
