Leading Key Players Operating in the Autism Drug Market Includes:

Bristol-Myers Squibb Company
ALLERGAN
AbbVie Inc
Johnson & Johnson Private Limited
Takeda Pharmaceutical Company Limited
Merck & Co., Inc
GlaxoSmithKline plc

Key Market Analysis and Insights:

[Autism drug market is](#) expected to gain market growth at a potential rate of 4.25% in the forecast period of 2021 to 2028. Rise in the prevalence of autism and pervasive developmental disorder (PDD) is the vital factor escalating the autism drug market growth.

Autism is defined as a CNS associated disorder characterized by number of disabilities such as difficulty in speech, challenges with behavior of the individual and lack of social skills like verbal and nonverbal communication. Diagnosis of autism can be done from a very young age with kids of age 2-3 year old and the cause of this disorder is yet unknown, but constant research and development is being carried on for the complete information of the disease.

Rising awareness about autism among the patient population will uplift the market growth, also rise in the research and development initiatives and expenditure, increase in the approvals of various off-label treatment therapies by the food and drug association (FDA), increase in the number of government-sponsored awareness programs for autism, rise in the innovation of new products, increase in the number of autism patients, and rise in the research & development activities are some of the crucial factors among others driving the autism drug market growth. Moreover, rise in the personalized medicines in the healthcare sector and rise in the collaborations for product development will further create new opportunities for the autism drug market in the forecast period of 2021-2028.
