Launching a Cloud VPS Business Now Easier than Ever with WHMCS VPS Reseller Updates from Rad Web Hosting

With WHMCS VPS Reseller from Rad Web Hosting, Cloud VPS businesses can fast-track and begin creating and selling servers in minutes.

DALLAS, TEXAS, UNITED STATES, October 7, 2022 /EINPresswire.com/ -- Remotely manage and resell VPS Servers with WHMCS Server module.

WHMCS VPS Reseller Server Module v1.1.1 released in Stable branch. Remotely manage and resell VPS Servers with WHMCS Server module.

We are pleased to announce the successful completion of scheduled upgrade of VPS Reseller WHMCS Server module to v1.1.1.

Rad Web Hosting is a leading provider of cloud services.

Find the Rad Web Hosting WHMCS VPS Reseller module on WHMCS Marketplace.

The WHMCS server module provides ability for reseller to automatically deploy VPS servers directly from their Cloud Resources based on custom values from order form submission. Now white-label cloud VPS deployment with seamless service delivery is achievable with Rad Web Hosting API & WHMCS VPS Reseller Module. End-users will only see reseller brand and even get full access to the VPS from WHMCS and with control panel access.

Additionally, some API commands may have changed. For a complete list of available API commands, please visit the VPS API Knowledgebase.

Steps to Upgrade WHMCS Server module
Upload the latest version (download here) to
/path_to_whmcs/modules/servers/virtualizor_cloud
