

KrishaWeb to make its impact in Dubai at GITEX Global Event in 2022

KrishaWeb is all set to enter one of the world's biggest and most influential technology events, GITEX Global 2022, on October 10-14 at Dubai WTC.

ALDIE, VIRGINIA, UNITED STATES, October 7, 2022 /EINPresswire.com/ -- GITEX is igniting the digital revolution yet again with the introduction of Global DevSlam - The first-ever event that connects programmers to global learning, cutting-edge projects, and thriving business growth.

In order to empower businesses and the entire world, it seeks to establish the largest and most active community network possible.

Moving forward, another centre point of attraction will be Metaverse! They are working to encourage businesses, tech firms, and the government to plan to use climate-preserving techniques responsibly.

Finally, let's take a deep dive into the world of cyber security. An opportunity to learn about evolving cyber-attacks, crypto-nite, and how to become more cyber-resilient.

Mr. Parth Pandya, CEO of KrishaWeb said, "GITEX is very important to us because it is one of the largest technology platforms in the Middle East and North Africa (MENA). We would certainly welcome the opportunity to exchange ideas and share knowledge with these technocrats. We noticed that technology is extremely adaptable in these regions, and we want to make a mark with it."

KrishaWeb will demonstrate its proficiency in powerful and impactful solutions, such as:

- Digital Transformation
- Business Consulting

- Technology Consulting
- Development Partnership
- On-shore/ Off-shore Team
- Scale up your techforce on-demand

Aside from that, KrishaWeb is also unveiling their new digital product, [BlueDolphin](#), which changes organisations' training cultures. There isn't a better opportunity available for KrishaWeb than this one to roll on their new product.

The goal is to help organisations change their learning culture through the use of digital learning experiences.

Here's a sneak peek at the product: It has lots of features like a central repository, keeping track of training logs, and assessing effectiveness and efficiency!
