

High Cost of Advanced Wound Care Products Hamper Growth of The U.S. Advanced Wound Care Market (Must Read)

Advanced wound care includes products used to treat chronic and acute wounds such as burns, ulcers and post-surgical wounds.

PORTLAND, OREGON, UNITED STATES, October 7, 2022 /EINPresswire.com/ -- The growing number and number of patients suffering from obesity, diabetes and chronic diseases are driving the growth of the [US advanced wound care market](#). However, the high cost associated with advanced wound care products is hindering the market growth. In addition, advances in technology to treat complex wounds are expected to provide new growth opportunities for retailers in the near future.

Advanced wound care includes products used to treat chronic and acute wounds such as burns, ulcers and post-surgical wounds. Advanced wound care products such as hydrogels, hydrocolloids, film and foam dressings, and alginates keep the wound moist to speed healing. Advanced wound care products provide solutions for patients with chronic wounds by providing them with products that are affordable and easily accessible.

Major market players covered in the report, such as -

- Adynxx, Inc.
- 3M (Acely Inc.)
- Coloplast A/S
- B Braun Melsungen AG
- Essity AB (BSN Medical GmbH)
- ConvaTec Group Plc

- Investor AB (Mölnlycke Health Care AB)
- Integra Lifesciences (Derma sciences)
- Medline Industries, Inc.
- Johnson & Johnson

Key Benefits for Stakeholders -

- The report provides quantitative analysis of market segments, current trends, strategies and potential of U.S. Advanced Wound Care Market research to identify potential market opportunities in genetics.
- In-depth analysis of this sector helps identify current market opportunities.
- Market analysis and information related to key drivers, restraints and opportunities are provided. • Porter's Five Forces Analysis identifies the capabilities of buyers and suppliers to enable stakeholders to make profitable business decisions and strengthen the network of buyers.
- The largest countries in each region are listed according to their contribution to the global market.
- Focusing on market players makes benchmarking easier and provides a clear understanding of the current market situation.
- The report includes regional and global U.S. Advanced Wound Care Market analysis, key players, market segments, application areas and Market growth strategies.

The adoption of advanced wound care products such as hydrocolloids, hydrogels, films and foam dressings and alginates is expected to grow significantly, due to the increase in chronic diseases such as diabetes and obesity. In addition, these products help maintain constant temperature around the wound, increase oxygen circulation, reduce pain during dressing changes, and protect the wound from disease, increasing their desire to seek medical care. In addition, increasing acceptance of evidence-based treatment for chronic wounds, complications associated with traditional methods of wound healing, and efforts to reduce length of hospital stay to reduce healthcare costs are driving the growth of the care market.

TABLE OF CONTENT -

CHAPTER 1 - INTRODUCTION:

- 1.1. Report description
- 1.2. Key market segments
- 1.3. List of key players profiled in the report
- 1.4. Research methodology
 - 1.4.1. Secondary research
 - 1.4.2. Primary research

1.4.3. Analyst tools & models

CHAPTER 2 - EXECUTIVE SUMMARY:

2.1. Key findings of the study

2.2. CXO Perspective

CHAPTER 3 - MARKET OVERVIEW:

3.1. Market Definition and Scope

3.2. Key Findings

3.2.1. Top investment pockets

3.2.2. Top winning strategies

3.3. Market Share Analysis/Top Player Positioning

3.4. Porter's Five Forces Analysis

3.5. Market Dynamics

3.5.1. Drivers

3.5.2. Restraints

3.5.3. Opportunities...

3.6. COVID-19 Impact Analysis on the market

Based on product, the therapy devices segment contributed to the largest share in 2019, accounting for more than one-third of the U.S. advanced wound care market, and is estimated to maintain its dominant position during the forecast period. This is owing to factors including availability of innovative portfolio for wound care devices, rise in government spending for advanced wound care devices, surge in awareness toward healthcare, and technological advancements in wound care devices. However, the active wound care segment is estimated to portray the highest CAGR of 14.6% during the forecast period. This is attributed to rise in number of plastic surgeries. In addition, surge in demand for innovative & advanced wound care products and rise in incidences of burns & trauma injuries across the U.S.
