

Affinity Bio Partners Expands Its Operations Into India

This global CRO found its niche and is aggressively expanding into the Indian market

CHESTER SPRINGS, PENNSYLVANIA, UNITED STATES, October 11, 2022 /EINPresswire.com/ -- [Affinity Bio Partners](#), a global clinical research organization, is pleased to announce its expansion into India. The company intends on opening offices in the near future. The CRO which focuses heavily in the pharmaceutical, device, biotechnology, medical cannabis, cannabinoid, and nutraceutical clinical research studies among many other special projects, will now be able to greater service its partners based in India.

"I am very excited to see the expansion of Affinity Bio Partners into India to continue to advance clinical research in a large scale global capacity. We have already been working on several global projects throughout the years, and want to ensure that we are expanding based on the business requests that we receive. It is of great importance to me personally to ensure that patients globally have access to clinical research studies to improve their personal outcomes and health," said Christina DiArcangelo, Chief Executive Officer of Affinity Bio Partners.

With this expansion, we are looking to work on clinical research in multiple oncology indications, neurological indications, pain, as well as COVID-19. [Spectral Analytics Precision Tele-Monitoring](#) will be partnering with Affinity Bio Partners to support around-the-clock, perpetual tele-monitoring of clinical trial subjects. The intention behind this partnership is to bring the cutting edge in clinical research to India.
