MDYS Coin Group Limited - 2022

Build wealth with MDYS

Limited parent company will center on the United States, and the server nodes will gradually cover the major global markets including the United States, Europe, Australia, Japan, Korea, China, Russia and countries in the Middle East region, etc., while the European market, as an important part of Mdyscoin's global market is the top priority.

The establishment of the Mydscoin UK company as the European market headquarters, on the one hand, the European market is a huge market with

unlimited business opportunities, on the other hand, the birth of the Mydscoin UK company will promote the integration of the European economy, but also the integration of European society and culture. As well as the great movement of people without borders, without identity and with a common currency, allowing local people to better communicate, discuss, express and live, the Mydscoin UK company was created to cater to the European financial market.

In terms of globalized market, the digital currency business system participated or independently developed by the parent company MDYS Coin Group Limited has served more than 200,000 users in more than 80 countries around the world. Relying on the relevant digital currency exchange under MDYS Coin Group Limited, it provides digital currency storage and trading for users worldwide. The digital currency storage and exchange of related projects under MDYS Coin Group Limited can realize the unified management of multiple blockchain assets, one-stop management, decentralized services, multiple security guarantees, and multi-language support functions. Currently, the parent company MDYS Coin Group Limited has close cooperation with Bithumb, BitMEX, OKEX, DigiFinex, etc.

In the future, the parent company MDYS Coin Group Limited, will be committed to building its exchange platform--MDYS Global Exchange, with the world's leading digital currency trading, ecological value flow and underlying blockchain application system. Change the existing technical and application ecosystem of crypto digital passwords, expand the application boundary and technical boundary of blockchain technology, and enable ordinary Internet users to feel the value of blockchain technology.
