

# Metoree, Manufacturing Database Sites, Has Now Surpassed 250 Categories

TOKYO, JAPAN, October 13, 2022

/EINPresswire.com/ -- About "Metoree," a Comparison Site for Industrial Products

Metoree is an industrial product information site for engineers/researchers operated by ZAZA, Inc. "Metoree" allows users to compare industrial product manufacturers and suppliers simultaneously. Therefore, by using Metoree, users will be able to find the product that meets user's needs from among many companies in various categories such as "FFT Analyzers," "Encoders," "AC Solenoids," "Leaf Switches" and "Press Units."

A screenshot of the Metoree website. The header includes the Metoree logo and a search bar with the placeholder "Start Searching". Below the header is a section titled "Search Industrial Products" with a sub-section "Search Manufacturers and Suppliers | Metoree". It features a search input field with the placeholder "Laser Diode" and a "Search" button. Below the search bar are several category buttons: "Neon Lamps", "Push Switches", "Rotary Coded Switches", "Tube Fuses", "MOSFET Output", and "Rare Earth Magnets". At the bottom of the screenshot, the text "Search Manufacturers and Suppliers | Metoree" is repeated.

## Launch of Metoree in the U.S.

Metoree will launch in the U.S. in October 2022. Metoree has decided to expand overseas to solve the problems faced by the manufacturing industry around the world. Many companies want to spread their products worldwide, including in the U.S., where Metoree has launched its U.S. operations. Metoree will continue to strive to become the world's number-one database site for the manufacturing industry, with 10 million users.

## Project Background

Metoree is a website that was launched out of a desire to solve the problems facing the Japanese manufacturing industry. They recognize that the manufacturing industry currently faces a great many marketing challenges. Specifically, there is an inability to exhibit at trade shows or conduct face-to-face sales activities due to the impact of Corona and a lack of specialized online marketing personnel. And Metoree was launched to solve those problems. They have received many gratitude words from many companies currently registered with us in Japan.

## Metoree Has Now Surpassed 250 Categories

They are pleased to announce that Metoree has now surpassed 250 categories. Examples of newly added categories are "Photodiode", "Gyro Sensors", "PCB Design", "GPIB", "MMIC", "Level Indicators", "Motion Controllers", "Tilt Sensors", "4 X-ray Tubes", "CPU Coolers" and many more. Metoree will be adding more categories in the future, so users can find more and more categories that fit their needs.
