Covid-19 scenario-

- The outbreak of the pandemic gave way to decreased demand from sectors such as automotive, textile, personal care products, and furniture, which impacted the global fabric glue market negatively, especially during the initial period.
- However, as the government of various countries started relaxing the norms, the market for fabric glue also got back on track.

The global fabric glue market is analyzed across type, end-use industry, and region. The report

takes in an exhaustive analysis of segments and their sub-segments with the help of tabular and graphical representation. Investors and market players can benefit from the breakdown and devise stratagems based on the highest revenue-generating and fastest-growing segments stated in the report.

Based on type, the temporary segment held nearly three-fifths of the total market revenue in 2021, and is expected to dominate by 2031. The permanent segment, however, would manifest the fastest CAGR of 7.0% throughout the forecast period.
