

Global Mortgage Group (GMG) Reveals Niseko Residential Mortgage Loans for International Investors

Perfect timing as most of Asia will be fully open for travel by this wintertime.

SINGAPORE, October 12, 2022 /EINPresswire.com/ -- Global Mortgage Group, the world's leading international mortgage brokerage, mostly focusing on global high-net-worth investors, today announced that [residential mortgages on Niseko mortgages are now finally available](#) for international investors.

This is important since Niseko has been one of the most popular winter destinations over the past 10 years, especially from Asia, given the local food options, luxury lodging available, and quality of the snow powder (known as "pow" in Niseko). However, despite the growth in homeownership over the past 10 years from international investors, it has all been cash purchases given the lack of financing options – until now!
