As per The Business Research
Company's "Passenger Aircrafts Global
Market Report 2022", the [passenger](#)

[aircrafts market size](#) is expected to grow from \$75.23 billion in 2021 to \$84.71 billion in 2022 at a compound annual growth rate (CAGR) of 12.6%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The passenger aircraft market is expected to reach \$149.88 billion in 2026 at a CAGR of 15.3%. The increase in global tourism is expected to fuel the growth of the passenger aircraft market in the coming years.
