Carl Zeiss AG
Den-Mat Holdings, LLC
Designs for Vision, Inc
Enova Illumination
ErgonoptiX

HEINE Optotechnik GmbH & Co. KG
Keeler Ltd
North-Southern Electronics Limited
Orasoptic

Key Market Analysis and Insights:

Data Bridge Market Research analyses that the surgical loupes and cameras market will exhibit a CAGR of around 7.23% for the forecast period of 2021-2028. Rising prevalence of dental diseases around the globe, increased focus of technological advancements involved in the manufacturing of medical devices and rising expenditure on the healthcare infrastructure development, especially in the developing economies, are the major factors attributable to the growth of surgical loupes and cameras market. Therefore, the market value, which was USD 485.75 million in 2020, will rocket up to USD 849.09 million by 2028.

The surgical loupes are the medical devices that are installed with tiny cameras to be used during a dental surgical procedure. This medical device helps to carefully examine the condition of the patient's mouth and assist the surgeon during a surgical procedure.

Upsurge in dental insurance coverage, especially in the developing economies, is one of the major factors fostering the growth of surgical loupes and cameras market. Rising advent of various innovations and researches in the field of healthcare to develop the technology involved and increasing number of surgical procedures are some other surgical loupes and cameras market growth determinants. Growing prevalence of musculoskeletal disorders, changing lifestyle, ever-rising patient base, and increasing personal disposable income will further generate lucrative surgical loupes and cameras market growth opportunities.
