## [Global Neurogenic Bladder Infections Market Scope](#)

The neurogenic bladder infections market is segmented on the basis of type, drug type, test type and distribution channel. The growth amongst these segments will help you analyze meager growth segments in the industries and provide the users with a valuable market overview and market insights to help them make strategic decisions for identifying core market applications.

## Type

Overactive

Underactive

On the basis of type, neurogenic bladder infections market is segmented into overactive and underactive.

## Drug Type

Sulphonamides

Azoles and Amphotericin B

Tetracycline

Nitrofurans

## Aminoglycoside Antibiotics

### Cephalosporin

### Quinolones

### Penicillin and Combinations

On the basis of drug type, neurogenic bladder infections market is segmented into sulphonamides, azoles and amphotericin b, tetracycline, nitrofurans, aminoglycoside antibiotics, cephalosporin, quinolones and penicillin and combinations. Aminoglycoside antibiotics have been further segmented into amikacin and gentamicin. Cephalosporins have been further segmented into ceftriaxone, cefuroxime, cefixime and cephalexin. Quinolones have been further segmented into ciprofloxacin, levofloxacin, nalidixic acid, norfloxacin and others. Penicillin and combinations have been further segmented into amoxicillin, amoxicillin and clavulanate potassium and others.

## Test Type

### Biochemical Urinary Tract Infection

### Microscopic Urinary Tract Infection

### Flow Cytometric Urinary Tract Infection

On the basis of test type, the neurogenic bladder infections market is segmented into biochemical urinary tract infection, microscopic urinary tract infection and flow cytometric urinary tract infection.

## Distribution Channel

### Hospital Pharmacies

### Gynaecology and Urology Clinics

### Drug Store

### Retail Pharmacies

### Online Drug Stores

On the basis of distribution channel, the neurogenic bladder infections market is segmented into hospital pharmacies, gynecology and urology clinics, drug store, retail pharmacies and online drug stores.

## Neurogenic Bladder Infections Market Regional Analysis/Insights

The neurogenic bladder infections market is analyzed and market size insights and trends are provided by country, type, drug type, test type and distribution channel as referenced above. The countries covered in the neurogenic bladder infections market report are U.S., Canada and Mexico in North America, Germany, France, U.K., Netherlands, Switzerland, Belgium, Russia, Italy, Spain, Turkey, Rest of Europe in Europe, China, Japan, India, South Korea, Singapore, Malaysia, Australia, Thailand, Indonesia, Philippines, Rest of Asia-Pacific (APAC) in the Asia-Pacific (APAC), Saudi Arabia, U.A.E, South Africa, Egypt, Israel, Rest of Middle East and Africa (MEA) as a part of Middle East and Africa (MEA), Brazil, Argentina and Rest of South America as part of South America.

North America dominates the neurogenic bladder infections market in terms of market share

and market revenue and will continue to flourish its dominance during the forecast period. This is due to the widespread awareness about the UTI and availability of treatment facilities in this region. Asia-Pacific on the other hand is projected to exhibit the highest growth rate during the forecast period due to the increase in growth can be attributed to the rising awareness among people pertaining about UTI and its treatment as well as rapid improvement in the standards healthcare facilities in the region.
