

2022 Frankfurter Buchmesse EXCLUSIVE!: Think Like A Molecule By Chuck Champlin

A former Walt Disney executive's relevant science book about the science behind a human's thought and imagination gears up for the 2022 Frankfurt Book Fair

FRANKFURT, GERMANY, October 12, 2022 /EINPresswire.com/ -- Frankfurt, DE- Tagged as "... a perfect book for those who enjoy scientific and philosophical ventures, and non-fiction reads..." by the Pacific Book Review and "... a unique perspective of what it means to think like a molecule..." by The US Review of Books, Chuck Champlin's *Think Like a Molecule: Seeking Inspiration in the Structures of Thought* will be at the 2022 Frankfurt Book Fair. This work explores the complexities of molecules and opens up readers' thoughts to the infinite possibilities it holds for a human's creative mind.

This work is efficacious to those who are curious enough to know how molecules can fit into the big scheme of things and how they are possibly one of the factors in creating life and the thinking minds, possibly all on its own. This small book poses a grandiose celebration of the defying possibilities of power and the sneaking into the possibilities of human thought and imagination that may have or may have not normally crossed our minds.

“

a perfect book for those who enjoy scientific and philosophical ventures, and non-fiction reads.”
