The organization's culture is the glue that holds together all of its constituent groupings. Staff, department heads, and leaders must all be aligned with the organization's values, mission, and vision; this is part of the organization's culture. A trip incentive is a wonderful technique to reignite the organization's culture. The incentive travel is considered as an investment by the corporates as it results in increase in overall productivity of the employee, leading to effective

achievement of the company's goals. It helps both, employers and employees in a positive manner.

Also, the upcoming startups culture across the globe has made it very difficult to retain top performing employees, thus incentive travel are expected to be implemented in various industries to retain top performers. There has been a fast reduction in employment around the globe due to firms attempting to minimize costs in response to a decline in company's revenue. In addition, technological advancement has impacted the employment rate as minimum employees are required to perform a task. Also, higher minimum wages across the developed nations such as U.S., Canada, UK, and others have lowered the employment rate. The COVID-19 outbreak and subsequent economic repercussions caused substantial suffering. During the initial months of the economic downturn, tens of millions of people lost their employment. Although the labor market began to recover after a few months, unemployment remained elevated in 2020. During the pandemic, millions of people were unemployed and struggled to afford basic food and housing. According to the U.S. Bureau of Labor Statistics, nonfarm payroll employment rose by 372,000 in June, and the unemployment rate remained at 3.6% in 2022. Thus, such factors are expected to hamper the Incentive Travel Market Share during the forecast period.

Depending on end user, the Incentive Travel Market Opportunity is bifurcated into individuals, corporate institutions, and others. The corporate segment occupied the major share of the market, and is projected to maintain its dominance during the forecast period owing to increase in spending by the company on employee to improve their morale and increase coordination among employees.

By source, the Incentive Travel Market Demand is segregated into domestic and international. The domestic segment is anticipated to grow at the highest rate during the forecast period, owing to its numerous advantages, including low-cost transport and easy availability, less time, and less documentation requirements.

In 2021, Europe was accounted for 37.1% in the incentive travel market size, and is expected to maintain its dominance during the forecast period. However, Asia-Pacific and Europe are expected to possess the highest CAGRs of 11.6% and 12.7%, respectively, owing to rise in awareness about traveling among people and increase in popularity of travel incentive in these regions.
