About Light Orlando: Light Orlando began with a concert. In 2021, people were feeling lonely and isolated as the world was coming out of the COVID-19 pandemic. With the Christmas season approaching, a group of community members came up with an idea to light the world through community service. Light Orlando created a Christmas concert to bring people together, to celebrate the power of music, and to find new ways to serve, and rejoice in the Savior of the World, whose light shines in us all. Light Orlando was born and continues to bless and unite Orlando area communities through the power of love and service.
