The key highlights of the report include:

Market Overview (2017-2027)

Historical Market Size (2020): USD 3 Trillion

Forecast CAGR (2022-2027): 6.1%

Forecast Market Size (2026): USD 4.3 Trillion

Owing to the use of modern technologies such as electronic health records (EHR) the process of drug procurement, and primary and follow-up treatment has enhanced. Additionally, along with electronic health records, the use of computerised prescription systems in primary care offices is

expected to improve the treatment quality and grow in the forecast period.

The growing expenditure in healthcare is aiding the expansion of outpatient clinics. Increasing incidences of cases of chronic illness and hospital re-admission in the Asia Pacific region are leading the industry towards growth. Moreover, government in China supports the option of online appointments and payments using mobile applications to eliminate the trouble of lengthy queues at outpatient facilities.

Ambulatory Services Industry Definition and Major Segments

Ambulatory care, also called outpatient care, refers to medical services that are performed without admission to a hospital or other facility. However, this type of care can include use of advanced technologies even when offered outside a hospital setting. The medical services involve diagnosis, observation, consultation, treatment, among others.

On the basis of type, the market is segmented into:

- Primary Care Offices
- Emergency Departments
- Surgical Speciality
- Ophthalmology
- Orthopaedics
- Gastroenterology
- Pain Management
- Plastic Surgery
- Others
- Medical Speciality

The major regional markets include:

- North America
- Europe
- Asia-Pacific
- Latin America
- Middle East and Africa

Market Trends

The growth of the global ambulatory services market is being driven by the rising preference for outpatient care. It is cost-effective and does not require a stay at the hospital. Government

initiatives and funding for ambulatory services is also boosting the growth of the market. With the advancement in technologies and processes that are minimally invasive and its consequent rise in demand amongst people is propelling the desirability of ambulatory healthcare facilities.

For instance, the development of laparoscopy and endoscopy has reduced the requirement for long stays at the hospital. It is anticipated that over the forecast period, various business strategies like geographic growth, mergers and acquisitions and product launches by established firms will push the growth of the market higher.

Key Market Players

The major players in the market are Envision Healthcare Holdings, Inc., Surgery Partners, Inc., HCA Management Services, L.P., Terveystalo Healthcare Oy, and Aspen Healthcare Limited, among others.
