As per The Business Research  
Company's "Commercial Aircraft Global  
Market Report 2022", The global

[commercial aircraft market share](#) is expected to grow from \$163.70 billion in 2021 to \$180.43 billion in 2022 at a compound annual growth rate (CAGR) of 10.20%. The growth in the commercial aircraft market outlook is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. According to the commercial aircraft market forecast, the market size is expected to reach \$302.58 billion in 2026 at a CAGR of 13.80%. Legal authority allowing the use of drones for commercial use is being extended more widely increasing a potential revenue channel for aircraft manufacturers.
