Market Overview (2016-2026)

Forecast CAGR (2021-2026): 9.8%

Scar Treatment Industry Definition and Major Segments

Scar treatment refers to the techniques and procedures used to treat acne, keloid scars, contracture scars, hypertrophic scars, and other types of scars. Scars are scars left behind by

surgeries, injuries, or infections. The treatment and revision procedures are used to make these scars appear less noticeable and more in line with the surrounding skin tone and texture. Various treatments, such as over-the-counter (OTC) gels, ointments, creams, and silicone sheets; surgeries for skin grafts, excisions, or laser treatment; and collagen injections, are used to speed up the healing process. Topical creams enriched with Vitamin E are sometimes used to reduce post-surgery scars.

The scar treatment market can be divided based on segments like scar type, product type and end-use.

Scar Type

- Atrophic Scars
- Hypertrophic and Keloid Scars
- Contracture Scars
- Stretch Marks
- Others

Product Type

Topical Products

- Creams
- Gels
- Oils
- Other Topical Product

Laser Product

- CO2 Laser
- Pulse-dyed Laser
- Other Laser Products

- Injectable Product
- Others

End Use

- Hospitals/Clinics
- Retail Drug Stores

E-commerce Stores

Scar Treatment Market Trends

The growing demand for scar removal treatment for burn injuries caused by rising road accident cases is driving the global scar treatment market. The introduction of laser therapy, which aids in the destruction of scar tissue, has also boosted the global market. Because scar removal products such as topical creams and gels, laser instruments, and steroid injections are commonly used in hospitals, the hospital segment is the largest shareholder in the market. Because of the high penetration of laser-based products in skin restoration and scar treatment, rapid adoption of advanced products, and growing awareness about aesthetic appeal, North America is the leading regional market.

Key Market Players

The major players within the market are Alliance Pharma, Bausch Health, Smith & Nephew plc, Merz, Inc., Lumenis, Sonoma Pharmaceuticals, Inc., Molnlycke Health Care, Cynosure, Inc., Suneva Medical, Inc., Sientra, Inc. and others. The report covers the market shares, capacities, plant turnarounds, expansions, investments and mergers and acquisitions, among other latest developments of those market players.
