

RED CHAOS: ANOTHER GEM OF A THRILLER IN THE RED HOTEL SERIES

RED CHAOS by Ed Fuller and Gary Grossman

UNITED STATES, January 4, 2023 /EINPresswire.com/ -- Dan Reilly returns as the United States becomes Russia's pawn in a global gambit one checkmate away from endgame in the new cinematic, turbo-charged thriller, [RED CHAOS](#): A Thriller From the Red Hotel Series (Beaufort Books). Former Marriott International President and Managing Director [Ed Fuller](#), who also serves on several boards including the FBINAA Foundation, and award-winning network television producer and bestselling author [Gary Grossman](#) continue their Red Hotel series with their trademark adrenaline intensity, combining firsthand international experience with hot political drama unnervingly echoing today's headlines.

RED CHAOS begins as Dan Reilly investigates who is behind a rash of terrorist attacks around the world. As the president of the international division of the Kensington Royal Hotel Corporation, it's his job to stop trouble before it reaches red, the deadliest level in his five-tier Red Hotel threat assessment plan.

Reilly is not your average corporate executive. He's a former U.S. Army and State Department intelligence officer who uses his skills to protect not only Kensington but the United States. Maintaining an ongoing relationship with the Secretary of State and CIA, Reilly keeps the intelligence information highway running both ways. Technically, he works as a consultant with his CEO's approval, but in reality, his business is hotels—and espionage.

“

Red Chaos is a timely must read... stimulating and eye-opening.”

Reilly's going to need all his skills as Russian Federation President Nicolai Gorshkov executes his covert master plan to rebuild the Russian empire and reclaim land lost to Eastern Europe. To

succeed, he needs money. And that's where the terrorists come in, through a comprehensive plot to attack foreign oil producers, assassinate global oil company executives, and tip the global economy in Russia's favor.

An assassination attempt against U.S. President Alexander Crowe leads Reilly to question the ascendancy of Vice President Ryan Battaglio. He believes Battaglio is "a wild card, possibly a useful idiot in the Russian president's mind," whose selfish narcissism makes him easy for Gorshkov to manipulate.

Can Dan Reilly truly identify who's behind the terrorist bombing and the execution of global executives of oil companies, Russian oligarchs, and an inept U.S. president? RED CHAOS is a pulse-pounding assault on Gorshkov's aggression at its deadliest.

"In Red Hotel and Red Deception, Ed Fuller brings his love of politics and his experience in the Vietnam War and deep inside knowledge of the hotel and travel industry including crisis management to build another political thriller with Gary Grossman, an acclaimed novelist, TV producer, and journalist. Pour some of the current global uncertainty into this cocktail, and you have the combustion of Red Chaos!" — Kathleen Matthews, ambassador for World Travel & Tourism Council, former ABC News anchor, former Marriott International senior executive

"Readers will cheer... an entertaining series firmly rooted in the real world." — Linda Peek Schacht, former press secretary to the U.S. Senate Majority Leader; founder, Andrews Institute for Civic Leadership
