HOUSTON, TEXAS, UNITED STATES, October 14, 2022 /EINPresswire.com/ -- Jeremy's book [Survive Scale Soar](#): The Entrepreneur's Guide to Building the Life and Business You Deserve soars to become a Best Seller book on Amazon competing with books Tim Ferriss's 'Tools of Titans' and Jim Collins's 'Built to Last'.

Jeremy's goal in his book Survive Scale Soar is for you to take something from this book that can make a difference in your life no matter where you are in your professional journey. He trusts that from the following chapters, and a look into what he believes has contributed to his success, you will find something that will be a jumping point from where you are today to where you want to be both as a business owner, and more importantly, as a person.

He will share with you how to get clarity, why it is important not to worry about others, reinforce the fact that anything takes work, teach you how to fail faster, explain why it is okay to be the turtle, discuss the importance of getting outside your comfort zone, and that growth requires leverage.

In short, if you run a small business, tune into podcasts, or are an entrepreneur who is trying their best to break the seven-figure barrier, you're in the right spot.
