Compression Stockings Market Size was valued at USD 1.79 billion in 2022 and is expected to reach a value of USD 2.77 billion by 2031, growing at a CAGR of 5.7%

NEW YORK CITY, NEW YORK, UNITED STATES, October 17, 2022

/EINPresswire.com/ -- [Compression Stockings Market](#) Size was valued at USD 1.79 billion in 2022 and is expected to reach a value of USD 2.77 billion by 2031, growing at a CAGR of 5.7% during the forecast period 2022-2031.

The market is growing because of the increasing number of health-conscious consumers and patients suffering from venous diseases. Also, increased exercise is part of one's daily routine

and beauty consciousness. The comforting fabrics and stylish designs of compression garments have replaced traditional gym outfits like T-shirts and shorts. This has led to the rise of the global compression garment market. The market for compression stockings is growing rapidly because of strategic collaborations. Women's compression stockings market has a larger value share than men's because the majority of products in this segment are for female customers. Although compression stockings for women offer medical solutions for poor blood flow in the leg, they also come in attractive designs, patterns, and colors tailored to specific customers' needs. One of the most sought-after stockings among women is the thigh-high compression stockings. The market for compression stockings is expected to grow due to the growing number of elderly people worldwide and the rise in diabetes cases. Additionally, the increasing prevalence of chronic illnesses will increase the demand for compression stockings.
