

# Direct Fed Microbials Market Share [+CAGR of 7.6%] | New Technology and Industry Outlook 2022-2031

*The global direct fed microbials market is forecast to grow at a CAGR of 7.6%.*

NEW YORK CITY, NEW YORK, UNITED STATES, October 17, 2022  
/EINPresswire.com/ -- About the [Direct Fed Microbials](#) Market Report (2022-2032) and Statistics

The market for direct fed microbials is growing rapidly as more and more livestock producers are turning to these products to improve the health and productivity of their animals. The global direct fed microbials market is forecast to grow at a CAGR of 7.6%. Direct fed microbials are live microorganisms that are added to the animal's feed, and they have been shown to improve digestive function, boost immunity, and promote growth.

The growing poultry and aquaculture industries are the major drivers for the growth of the direct fed microbials market. The increase in demand for healthy and organic meat products is also fueling the growth of this market. The use of direct fed microbials as feed additives helps improve gut health, which in turn leads to better growth and productivity in animals.

However, the high cost of these products is restraining the market growth to some extent. The lack of awareness about the benefits of using direct fed microbials is also hampering market growth. Nevertheless, the increasing focus on animal health and well-being is expected to create opportunities for market expansion in the coming years.

Direct Fed Microbials Market

## Future Outlook Even Better than Historical Years:

The past few years have been tough for the economy, but things are improving. The future outlook is even better than historical years. There are several factors that contribute to this positive outlook. Consumers are confident and spending money. Businesses are investing in their future and hiring more workers. All of these factors together create a recipe for continued economic growth. Even though there are some challenges ahead, such as trade tensions and rising interest rates, the overall outlook is positive. The Direct Fed Microbials Market would span several territories, including basic research, clinical research, industrial research, development, and commercialization.

## Report Coverage

\* Base Year - 2021

\* Historical Data - 2016-2021

\* Forecast Data - 2022-2032

\* Short-Term Projection Year - 2028

\* Projected Year- 2023

\* Long-Term Projected Year - 2023

\* Regional Scope - North America, Europe, Asian Pacific, Latin America, Middle East and Africa, and ROW

## Direct Fed Microbials Market: Company profiles

DuPont

Novus International

Chr Hansen

Lallemand Animal Nutrition

ProviCo

Bentoli

Novozymes

Synbio Tech

Maxum Foods

Koninklijke DSM

Asahi Group Holdings

ADAMA Agricultural Solutions

This report gives a comprehensive analysis of these major players in the global Direct Fed Microbials market. To increase their market share in different regions, these players have used different strategies, including new product launches, collaborations and expansions. This report provides valuable information about the market, including their business performance, operating segments and product portfolios, as well as strategic moves to show the competitive environment.

Market Segmentation Evaluated in the Report:

Product Outlook (Revenue, USD Million, 2021-2031)

Powder  
Liquid/Gels  
Tablets

Application Outlook (Revenue, USD Million, 2021-2031)

Poultry  
Ruminants  
Swine  
Aquatic Animals  
Others

Regional Insights

North America (United States, Canada and Mexico)

Europe (Germany, France, United Kingdom, Russia, Italy, and Rest of Europe)

Asia-Pacific (China, Korea, India, Southeast Asia, and Australia)

South America (Brazil, Argentina, Colombia, and Rest of South America)

Middle East & Africa (Saudi Arabia, UAE, Egypt, South Africa, and Rest of Middle East & Africa)

Here are 03 key points to this big story:

1. Research Approach:

In this research study, both primary and secondary data were extensively used. The research included the analysis of many factors that affected the industry. This included the government policy and competitive landscape, historical and current data, trends in the market, technological innovations, future technologies, and market risks, barriers, opportunities and challenges. This figure illustrates the market research method used in this report.

## 2. Market Size Estimation

To validate the global Direct Fed Microbials Market, top-down and bottom up approaches are used. These methods can also be used to estimate the market size of manufacturers, regions, product segments, and applications (end-users).

The market estimations in this report are based on the marketed sale price of products (excluding any discounts provided by the manufacturer, distributor, wholesaler or traders). The percentage splits, Market Share (%), and breakdowns of the product segments are derived on the basis of weightages assigned to each of the segments based on their utilization rate and average sale price. The regional splits of the overall market and its sub-segments are based on the percentage adoption or utilization of the given product in the respective region or country.

## 3. Analyst's Perspective On Direct Fed Microbials Market:

According to the study, the market for Direct Fed Microbials will grow at a CAGR (%) between 2022 and 2032. New entrants will be encouraged to enter the market and capitalize on the growing demand by the market's profitability. Many innovative companies have emerged in this market due to favorable government policies in countries of the developing world that were supported by venture capitalists and cutting-edge capital. Opportunities will be supported by the expansion and development of e-Commerce portals that offer attractive discounts and deals to customers even from faraway regions.

We have many reasons to recommend us:

- Market.us cover more than 15 major industries, segmented into more than 90 sectors.
- More than 120 countries
- More than 100 paid data sources were mined for investigation.
- Ask our research experts any questions you may have before or after you purchase your report.
- Develop an overview of the current Direct Fed Microbials landscape in key markets
- Learn how regulatory or legal changes will affect the market

- Identify market prospects
