

Aircraft Evacuation Market Line Fit, and Retrofit Industry Forecast, 2021-2030

PORTLAND, ORAGON, UNITED STATES, October 17, 2022 /EINPresswire.com/ -- [Aircraft Evacuation Market](#) by Equipment Type (Life Vest, Evacuation Slide & Raft, Ejection Seat, and Emergency Floatation), Fit (Line Fit, and Retrofit), and Aircraft Type (NB, WB, VLA, RTA, Fighter Jet, and Helicopter): Global Opportunity Analysis and Industry Forecast, 2021-2030

Aircraft evacuation refers to emergency exit from an aircraft that can occur on the ground, in water, or in mid-flight. There are standard evacuation procedures and special evacuation equipment. Governments across the globe are creating stringent regulations for airline operators to equip their airplanes with the latest safety technologies to improve passenger safety. In December 2015, for example, the Federal Aviation Administration (FAA) approved the installation of new escape slides in over 300 Boeing 767 jetliner aircraft to improve passenger safety. The global aircraft manufacturers are collaborating with various companies in the Asia-Pacific region to develop their manufacturing facilities in the region. Moreover, various aircraft component manufacturers are also collaborating with different companies in the region.

COVID-19 Impact Analysis

The supply chain of spare parts of aircraft evacuation systems has been hampered due to the declared lockdowns across the globe. Lockdown of airports across the globe & halt of all activities inside the airports have reduced the opportunities for aircraft evacuation industries and their business development potential has been hampered. Considerable rise in demand in the commercial aircraft market is soon expected as the world is returning to routine, and the majority of domestic & international flights have started to resume.

Top Impacting Factors

Rise in need for advanced emergency response systems, surge in commercial aircraft segment, and increase in demand for new airplanes coupled with numerous safety drills drive the growth of the market.

Installation of such advanced safety features, the flight crew needs to be trained extensively which is an expensive affair, and long product lifecycle of evacuation slides hamper the market

growth.

Rise in number of air passengers globally act as an opportunity for the market investments.
